

**Our Core Beliefs
We Hope You Share
With Us**

- 1. Personal Responsibility and
Freedom of Choice**
- 2. Free Markets & Prosperity**
- 3. Defend Liberty**

Chairman's Message

We think these ideas are the heart of the American way of life. We think the Republicans and Democrats have abandoned these ideas and want to see them restored to their proper place in American politics. If you share our beliefs, we could surely use your help to put America back on the founding father's course of freedom and prosperity.

Restore America

Libertarian Party

Personal Responsibility & Freedom of Choice

These principals are two sides of the same coin. Each person should have the freedom to choose how they want to live. Libertarians demand this right for themselves and can not see how anyone can deny it to you, unless you demonstrate that you do not know how to use your freedom without hurting others.

The point where Libertarians part company with many people is that we believe that you have the right to be self destructive, but that you, not your neighbors, not the government, should have to bear the consequences of your bad decisions.

This reverence for Personal Freedom and Personal Responsibility is why Libertarians want a smaller (non-meddling) government.

Free Markets & Prosperity

We believe that capital and labor should be allowed to flow freely to where they are needed. When this occurs, the economy produces the greatest benefit for the largest number of people.

Instead of Free Markets, Americans have been taught the economics of socialism. That the government intervenes in the markets to control prices or underwrite costs for one group or another. Plain and simple, this is either corporate or personal welfare. The result of government welfare policies is taxes on your hard earned income to pay for the government's giveaway.

These policies drive up the cost of goods and services, act as a deterrent to entrepreneurs, and distort the natural free market forces that better life.

Defend Liberty

It is a key principle of all Libertarians that everyone has a God given right to live as they think best. Because of this belief, Libertarians deny themselves the right to force their ideas on others. This includes using our military in a preemptive manner.

We reject the doctrine of preemptive war in all its forms. It is cowardly at best and criminal at worst.

The United States should never engage in undeclared war. But, when war is forced upon us, we reject halfhearted methods. We reject the imperialist idea that war is just a continuation of diplomacy.

We believe wholeheartedly in our Constitution, and that our military should be the finest in the world.
